The second house has a nice covered pavilion area, 2 large bedrooms, 1 bathroom, large gathering area, kitchen, and dining room.

The property has good brush diversity, tree coverage, drainages, and a traversing seasonal creek. There are 3 tanks positioned throughout the ranch, one is approx. 6 acres.

This ranch is very well watered for the wildlife. Native wildlife includes whitetail deer, turkey, Javalina, hogs, dove, quail, and varmints.

This is a ready to go very well maintained ranch.
