## ELM RANCH

2500± ACRES • KERR COUNTY • HUNT, TEXAS

Quality, well-managed turn-key hunting ranches are difficult to find in the Hill Country, especially in Hunt. The owners have taken great pride in managing this ranch to improve it to its fullest potential. They have carefully placed water wells to maximize the efficiency of the wildlife development and hunting operations, including but not limited windmills and selectively cleared brush. The ranch offers a little of everything the Hill Country has to offer. Rugged hilltops, distant views, large hardwoods, numerous springs, and deep ravines make this a beautiful Hill Country Ranch anyone would be proud to own.
