HIDDEN CAVE RANCH

214 AC • IN HUNT TEXAS

Deep in Hunt, TX near the North fork of the Guadalupe, lies an end-of-the-dirt-road private ranch with untapped potential, plenty to be discovered, and a hidden cave. Great views, abundant hardwood trees, and room to explore, hunt, or just get away from it all. Axis, whitetail, turkeys and hogs have all been seen on the property, and Aoudad and Red Deer have been seen near by. Without fencing on two sides there is no telling what might show up under your feeder.
