

MEDINA RIVER & WINANS CREEK RETREAT

MEDINA RIVER & WINANS CREEK RETREAT

35± ACRE • BANDERA, TX • BANDERA COUNTY

An oasis of sorts in the Texas Hill Country, this property has three live waterways. Winans Creek flows along one side and into the Medina River at the back of the property. A spring in the center of the property, currently flowing, adds to the appeal as well. Towering Cypress Trees line the creek and river banks. Schools of fish can be seen in the crystal clear water. Herds of Axis and whitetail will almost run you over as you explore the property. A historic barn and cabin tell stories of the days past. Highway 16 frontage provides possible development opportunities. Call today to set up your private showing.
