

WALLACE BLUFF RANCH

WALLACE BLUFF RANCH - 214 Acres

This is a great opportunity to own your own private Cyprus lined creek. Wallace Creek passes through the entire 214 acres allowing great water access and ownership of both creek banks. It's not often that an owner has the ability to own both sides of a major creek. The property has gently rolling hills offering wonderful views and easy access to the creek. Deep rich soils are present throughout the bottom land offering wonderful tree cover. Additional acreage is available.
